

Homebound Education

When a student in Special Education is confined to their homes via doctor's orders the school is required to have an IEP meeting and develop an education plan. The plan is documented in the IEP and PWN, and there is additional paperwork required for each session provided. This paperwork is carbon copies with a white, yellow and pink copy. The white copy goes in the student file, the yellow is for the parent/guardian, and the pink gets sent to River Bend. The Carbon Copies are found at the River Bend Education District Building and should be requested when you have a student placed on homebound.
